

HOW TO KNOW YOUR SIZE?

STEP 1: MEASURE YOURSELF

Use a measuring tape and keep it horizontal while you're measuring.

Chest (B): Measure around the fullest part of the chest area, keeping the tape level under your arms and across your back.

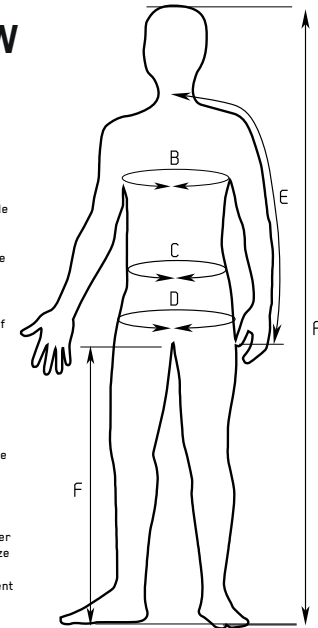

Waist (C): Measure around the narrowest part of the waist.

Hips (D): Measure around the fullest part of the hips.

Neck To Fingers (E): Bend the arm slightly and measure the length from the centre back of the neck, to the shoulder tip, along the outside of the arm, and to the tip of thumb.

STEP 2: FIND YOUR SIZE

Use the chart below to determine your size. If you're on the borderline between two sizes, order the smaller size for a tighter fit or the larger size for a looser fit. If your measurements for chest (B), waist (C) and hips (D) correspond to different suggested sizes, order the larger size.
